

“The Student Oath”

I promise to use AI in an ethical, smart and kind way.

I promise to use AI to learn, grow, and create.

I promise not to use AI to cheat or copy.

I promise not to use AI to hurt, bully, or trick others.

I promise to always check if the answers from AI make sense.

I promise to ask questions and think on my own.

I will always remember that AI is a tool, not my boss.

I am responsible for what I create and share.

I promise to use AI to make the world a better place.

I hereby commit towards how I will use AI.
